(54) Title: **METHOD AND SYSTEM FOR IDENTIFYING THE IDENTITY OF A USER**

(57) Abstract: The present invention describes a method and system for verifying the identity of a user of a first terminal in a communication system comprising at least a communication network (NET), a first terminal (DTE) associated with the communication network (NET) and a service provider (SP) associated with the communication network (NET). In the method, a first logical channel is set up via the communication network between the first terminal (DTE) and the service provider (SP). The user of the first terminal is identified after the first logical channel set up via a second logical channel other than the established first logical channel between the service provider and the first terminal prior to providing any services to the caller.

## INTERNATIONAL SEARCH REPORT

## A. CLASSIFICATION OF SUBJECT MATTER

IPC7: H04L 9/00

According to International Patent Classification (IPC) or to both national classification and IPC

## B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

IPC7: H04Q, H04L, H04M, G06F

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

SE,DK,FI,NO classes as above

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

EPO-INTERNAL, WPI DATA, PAJ

\* Special categories of cited documents:

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier application or patent but published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance: the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance: the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
